

Dry Dusting

Why is Dust Mopping so important?

The regular use of a dust mop will control dust which saves time and money while promoting a healthy environment. Routine dust removal will eliminate abrasive dust particles that ruin your floor and its finish. Dust mopping will protect your floors, help save you time and drastically reduce your labour cost for stripping and refinishing floors. Dust mops are an important factor to developing a floor care program. Marino offers quality dust mops in various sizes, designed for top performance.

Our complete line of mops can make your dust control program a success.

Marino Dustmops

All Marino dust mops, cotton and hi-stat, are constructed from the highest quality yarns that are sewn onto a durable polyester backing. Available in three styles, Tie-On or Break-Away and Pocket ranging in lengths from 18" to 60" for either 3 1/2" or 5" frame widths. Every floor that is being dusted requires a dust

mop specifically designed for that environment, in order to provide the best possible performance. Environment, budget and preference will be the determining factors as to which type of dust mop is best suitable for the task at hand. Marino offers varieties of high quality dust mops to assist in the efficient removal of dust and dirt.

All Marino dust mops are designed for high performance in the most demanding environments.

Caring for your Dust Mop

1. At the end of each shift/usage, the dust mops should be shaken out, vacuumed or brushed completely, in order to remove the larger particles from the mop. If treatment is being used, it should be re-treated when necessary.
2. If the dust mop is clean, it should be stored upright in a clean/dry area, away from the wall and floor.
3. If the dust mop is soiled, it should be laundered. We recommend a laundry net be used. Cotton, Hi-Stat, Ferma-Twist and G-Stat dust mops should be laundered separately.

HiStat™ Dust Mop - Tie-On

**The ultimate dust mop.
A must when you demand ultimate quality and value.**

- All Marino HiStat dust mops have the ability to remove dust without the need for expensive and potentially hazardous dust mop treatments.
- HiStat uses electrostatic properties to attract and hold dust particles.
- All Marino HiStat dust mops are manufactured from durable specially blended yarn that is sewn onto a durable polyester backing.
- The specially blended yarn allows dust mops to withstand heavy use and repeated commercial laundering with virtually no fraying, tangling, unravelling and linting.
- These mops feature much more yarn fill than competitive mops; therefore, more yarn to control dust.

MicroEco Dust Mop

New product 2008

Go green... naturally, with Marino's new MicroEco Dust Mop made of post-consumer PET plastic soda bottles and revolutionary Microfiber technology. The advantages of utilizing microfiber yarn are: minimized linting, high resistance to chemicals & disinfectants resulting in a mop that works.

Our New MicroEco Mop is just another step in helping preserve our natural resources as it prevents thousands of bottles from becoming landfill waste. Together, we can all commit in doing our part to protect the environment.

This unique 4 ply yarn is manufactured from a combination of 2 strands of Microfiber yarn and 2 strands of Green PET synthetic fibers derived from plastic bottles.

Cotton dust mops

- Marino offers a quality cotton dust mop that is absorbent and economical.
- These industrial standard dust mops are constructed of a four-ply high quality cotton yarn that is sewn onto a durable polyester backing.
- All Marino cotton dust mops feature much more yarn fill than competitive mops on the market which translates to even greater dust retention.
- Available in two styles, tie-on and break-away, in lengths from 46 to 152 cm / 18 to 60 inch and can be ordered for either 9 or 13 cm / 3½ or 5 inch frame widths.
- Ideal for schools, commercial, contractor markets or anywhere price is an important criteria.
- All cotton dust mops may be pre-treated. Please specify when ordering.

Dust Mop Brace

- Ideal to reinforce larger dust mops from 48" and larger.
- Makes a heavy duty large dust mop frame more durable and provides extra support for handle which helps distribute weight for better control.
- Constructed of heavy duty rust proof steel wire that is quickly and easily mounted.
- Frames are sold separately.

Code	Description	kg	lbs	Cube m	Cube ft	Pack
MI352	Dust mop brace – not suitable for break-away frames	4.0	8.82	.0006	.02	20/1

Scissor Mop

- Ideal for gymnasiums, warehouses, hospitals, airports or any large open areas.
- Saves time by covering large areas in half the time of conventional dust mops with an open span of 193 cm / 76 inch.
- Center "V" design provides a collection point for heavy soil and trash.
- Scissor mop frames are constructed of a heavy duty metal. Handles fold to allow adjusting for various widths and enable easy passage through narrow areas. Can be closed for easy storage.
- Scissor mops are sold complete with two 97 cm / 38 inch launderable hi-stat refills.

Code	Description	kg	lbs	Cube m	Cube ft	Pack
2999C	Frame/handle with 2 hi-stat refills – complete	3.0	6.61	.028	1.0	1

Dry Dusting

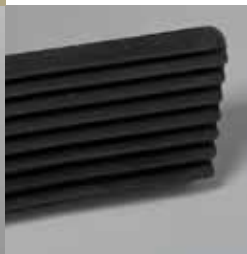

Dustmaster Frame

New product 2008

The Vileda Line Dust Control System is the professional method of removing dust from modern floor surfaces in the quickest way. Dust mopping as a maintenance or preliminary cleaning method has the advantage of reducing the frequency of wet mopping. It comprises a range of disposable impregnated cloths developed to meet tough economy and performance demands.

- Rubber base with blades to allow an optimized contact on the floor.
- Intensive lines of pressure
- The back side rows have a different angle than front side
- Plastic support made of PP with 30% fiberglass
- Universal collar connector (PP) attachment with 4 clip fixation
- Polyamide insert on support: 4 push-in holders
- 4 fixation clips for disposable dry cloths

DM122783	Dustmaster frame						10

High Performance Dustmop Cloth

- For dry cleaning of hospitals, offices and computer rooms
- A pre-impregnated surface collects dust like a magnet
- Heavyweight viscose non-woven material impregnation for higher dirt collection.

Code	Description	Size	kg	lbs	Cube m	Cube ft	Pack
CL101268	Dustmop high performance cloth	24 cm x 60 cm / 9½ x 23¾ in			.	.	50

Static Attack

The Marino Static Attack dry dust control system attracts more dirt and dust by creating a small electrical charge that attracts the debris into the thick fiber pile.

- Light light trapezoid designed frame easily gets into corners
- A 360° swivel head allows for easier movement of frame
- Ideal for hospitals, nursing homes, offices and computer areas

Code	Description	Size	kg	lbs	Cube m	Cube ft	Pack
ST1200	Static Attack frame only	58.8 cm / 22 in	2.24	4.95	.022	.8	6
ST1000	Static Attack sheets	20 cm x 60 cm / 8 x 13¾ in	2.49	5.5	.002	1.7	200

Vileda Telescopic Handle

- Lightweight but strong aluminum telescopic handle.
- Ergonomic centre grip and anti-slip handle grip
- Colour coded rings (BRYG)
